Great large corner lot! Unit B of a 3 unit CPR is accessed from Keha Drive and consists of 8,396 square feet. Choose to build a single story 840 square foot home or like in the sample rendering, build a 2 story home with a 2 car garage underneath to capture the current ocean views. With high prices of older homes that need vast amounts of renovating, it makes sense to build a new home on this spacious level lot. A new shared septic system has been newly installed for your construction convenience.
