Great start on creating your own homestead on up to 6 acres of rainforest in cooler upper Mountain View area. Side by side lots were rolled and ripped for two homes several years ago with driveways, house pads, and wastewater holes. Since then, uluhe ferns have grown, but no trees have regrown. One driveway is still visible and still open, and the other is visible, but almost grown over.

Enjoy the options of having grid electric or off grid self sustainability as well as fiber optic option or other high speed service. Water will be supplied by catchment--free
