sqft land listing price

This previously cleared 1-acre property is ready for new owners to bring their vision to life! With no large albizia or mature trees, the lot is mostly level and easy to work with. While the grass has since grown back, it can be easily cleared with minimal effort and lower costs. Located just two lots in from pavement, this property is ideal. On the left side of the lot, is a precut driveway that has now overgrown, but leads to an existing house pad, still outlined with form boards. The property was previously purchased with County-approved plans and a water well
